Watamu Primary School Class Room Renovations 2012

Medina Palms has undertaken several Corporate Social Responsibility activities in the last few months. Recently they have supplied new desks for the classrooms and play sand for the playground.

Medina Palms continue their support and are now undertaking the refurbishment of the class room buildings, to make them much lighter places for the children to learn.

The exterior walls have now been re-plastered and new grilles have been fitted to the windows to allow fresh air and light into the classrooms.

Mr Ben Kaparo, (right) Medina Palms Corporate Affairs Executive, with Watamu Primary School Headmaster inspecting the recent work.

Playing on the new soft ground

The exterior walls have now been painted and now the school looks very bright and cheerful.

A classroom above, showing one of the old stone windows and the light from the new windows with grilles.

The interior walls are next to be painted and this will be undertaken within the next few weeks.

Pupils at the official handover of the new desks
